Attn: Kelly Taylor

3500 DePauw Blvd. Suite 2020

Indianapolis, IN 46268

Re: RFP - Air Filters and Filtration

Dear Ms. Taylor,

Thank you for your interest in Filterbuy. Filterbuy was founded in 2013 and has grown to become the #1 Direct-to-Consumer Air Filter brand in the United States with seven strategically located manufacturing/distribution centers across America where we make over 100,000 air filters every day. This allows us to keep an average of three week's stock available for as quick as next-day shipping. All Filterbuy branded air filters are proudly Made in America.

Filterbuy Business, a division of Filterbuy, offers all types of commercial air filters and HVAC belts directly to businesses and government agencies at wholesale prices. We do not offer our products through distributors like most air filter manufacturers. Buying directly from the manufacturer can usually save our clients 20-40% over purchasing through other channels, allows for quicker delivery and provides a higher level of customer service. We welcome the opportunity to be of service to Central Indiana Education Service Center (CIESC).

Please find enclosed our response to your bid request.

Offer

Filterbuy is pleased to offer you an 18% discount off our wholesale pricing on the full catalog of our items, excluding V-Belts, which can be viewed on our website at <http://filterbuy.com/>. We also offer **free shipping for ALL orders within the continental United States.**

Our wholesale pricing is based upon quantity ordered, current media costs, taxes and fees based upon location of shipment by a preset algorithm. If you order a higher quantity of filters, your price per filter may go down.

Please note the following regarding our submission:

- We have included an Excel Spreadsheet of our wholesale pricing compared to the 18% discount we are offering CIESC. Below you will find copies of our Product Data Sheets for the filters we offer.

Lead Time

Currently our lead times are approximately 1 - 4 weeks depending on the size of the order and the variation of filter size. Smaller orders/orders with only standard sizes will ship sooner. Larger orders/orders with custom sizes may take longer.

General Experience

At Filterbuy, we care about the air you breathe. That is why our family-owned and operated company works around the clock to deliver clean, indoor air into your home and your business. From our first air filter sold in 2013, we have proudly built our business in the USA, manufacturing in Alabama, Florida, Pennsylvania, and Utah. As our Filterbuy team has grown to nearly 1,000 employees, we have kept our commitment to community investment and personal service.

We built our business from the ground up with efficiency in mind. We have invested heavily in our technological infrastructure to provide you the quickest, seamless, most cost effective solution to buying air filtration products on the planet. We allow you to minimize your inventory cost by shipping most orders within 24 hours (and for the majority of our products we offer a 3 day guarantee). Most other companies are a minimum of a two-week lead-time, often even longer in reality. We also are the direct manufacturer of the vast majority of products that we sell. There are no other middlemen involved. We make ordering our products as easy as clicking a couple of buttons. You and your employees will save countless hours in back and forth phone calls. You place an order on our site and your order, big or small, arrives as promised. Quick and seamless.

Company Contacts

Our staff is here to help you with any questions you may have regarding our bid submission, upon award, and during an awarded contract.

Warranty

If you are not 100% satisfied with your purchase, we are happy to accept unused items for a full refund within 90 days after your item was ordered. However, we do not provide refunds on custom orders unless Filterbuy has made an error. If you have any questions on our refund policy, please feel free to reach out.

Thank you in advance for giving Filterbuy the opportunity to serve you.

Yours Truly,

MERV 8 Odor Eliminator 1"

American-Made Filters Guaranteed To Fit

Filter unpleasant odors and VOCs while trapping airborne pollutants at the same time with our odor-eliminating charcoal/carbon filters. Our Odor Eliminator charcoal filters are a must for businesses with pets, daily cooking, strong cleaning products, scented candles, or mysterious lingering smells. Filterbuy charcoal filters are perfect if you love a clean-smelling building or want the most reviewed carbon filter on the market!

We use electrostatically charged media in our pleated charcoal filters to trap 90% of airborne particles in your indoor air. These particles can grow and produce smells, including mold, mildew, pet dander, and cooking odors.

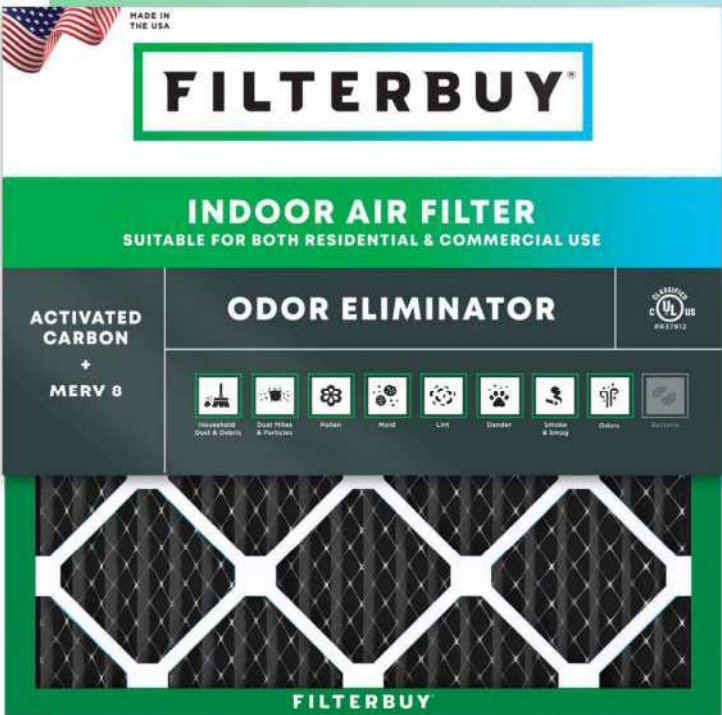

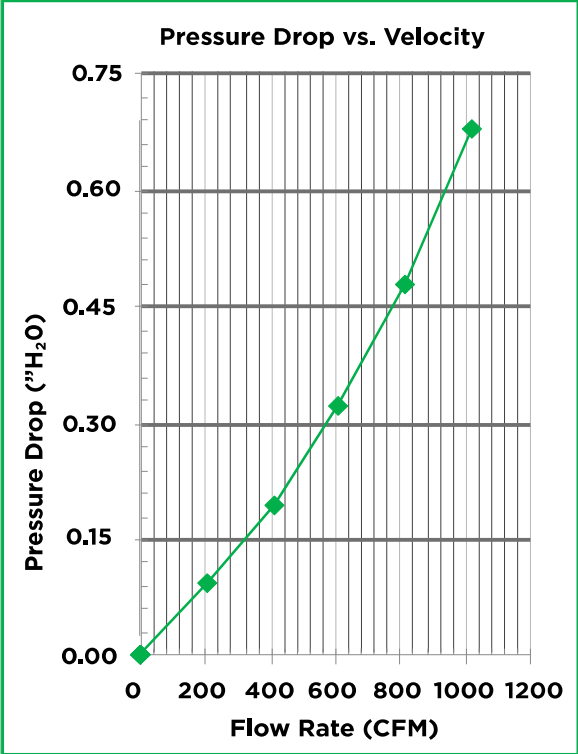

Also known as carbon filters, these filters offer the same level of particulate filtration as our popular MERV 8 filters (comparable to MPR 600 & FPR 5 models) with the added benefit of odor removal. Pollutants in your indoor air can produce lingering smells, especially if you aren't using high-quality air filters or forget to change your filter regularly.

Filterbuy Business sells wholesale direct from our seven strategically located factory-distribution centers.
MADE IN USA

Odor Eliminator What Does It Offer?

- Odor Removal
- Eradicates Harmful Gases & VOCs
- Captures 90% of Airborne Particles
- Clears Smoke & Chemical Fumes
- Improves Indoor Air Quality
- Neutralizes Unpleasant Smells
- Does Not Release Harmful Byproducts
- Available in 2" & 4"

Why Choose a Charcoal Air Filter?

- Eliminates Odors:** These filters are great at trapping and neutralizing unpleasant smells from things like cooking, pets, smoke, and even cleaning products.
- Removes Harmful Gases & VOCs:** VOCs, or volatile organic compounds, are emitted from many household products like paint, air fresheners, and certain furniture. Carbon filters effectively trap these gaseous pollutants, creating a healthier environment
- Clears Smoke & Chemical Fumes:** If you live with smokers or have occasional exposure to paint fumes, a carbon air filter can help remove those airborne particles, making breathing easier.
- Improves Indoor Air Quality:** By removing these contaminants, carbon filters contribute to a generally cleaner and healthier indoor environment, especially for people with allergies or respiratory problems.
- Safe To Use:** Unlike some air filters, carbon filters don't release any harmful byproducts back into the air during the filtration process.

Don't just take our word for it:

★★★★★

"This is the 2nd time I've ordered the odor eliminator filters, they work perfectly especially with cooking odors. I also like the fact that I can buy in bulk to keep costs down. Good quality product."

★★★★★

"The price, delivery, and quality were all excellent. I'm happy to no longer buy from big box stores! The recurring delivery will help me keep my A/C clean."

★★★★★

"They are fast and efficient, and the filters they provide are top quality. Their customer service is easy to reach. It just does not get any better."

Prioritize filters with the most effective media area for superior air filtration.

Top Reasons to Choose Filterbuy Business

- Wholesale pricing from the factory
- 100,000 filters produced daily
- Any custom size filter can be made
- Order online or via your dedicated representative
- Filterbuy Business is your source for pleated air filters, rigid box filters, ring panels/links, pocket filters, minipleats, v-cells, HVAC belts, and more

(based on 24x24x30 8-pockets)

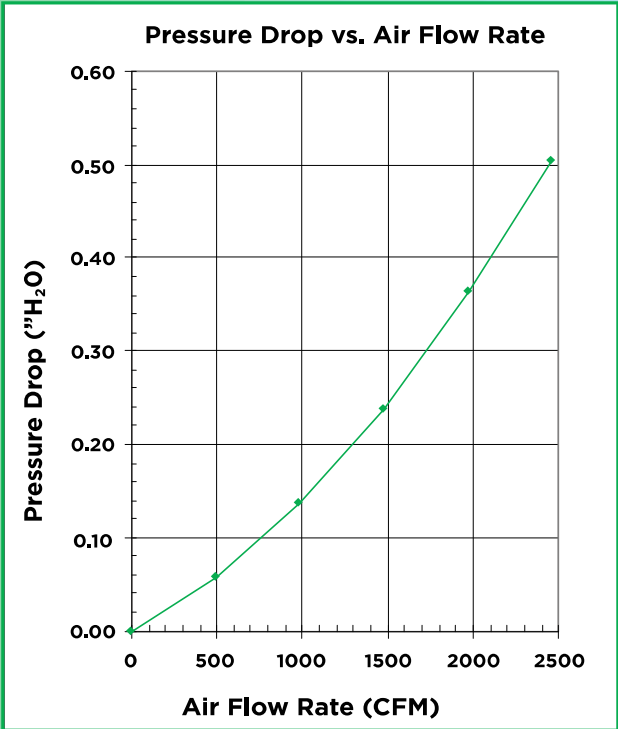

Filterbuy Business sells wholesale direct from our seven strategically located factory-distribution centers.
MADE IN USA

Pocket Air Filters

- MERV 14 Efficiency per ASHRAE 52.2
- Reduced Pressure Drop
- Increased Service Life
- Easy-To-Install
- Produces Less Water
- Available in various depths, pocket numbers, and efficiencies
- 3/4 header for 1" tracks or front-loading filter frame

Available Sizes

12x24x12	12x24x15	12x24x22	12x24x30
20x20x12	20x20x15	20x20x22	20x20x30
20x24x12	20x24x15	20x24x22	20x24x30
24x24x12	24x24x15	24x24x22	24x24x30

(based on 24x24x30 8-pockets)

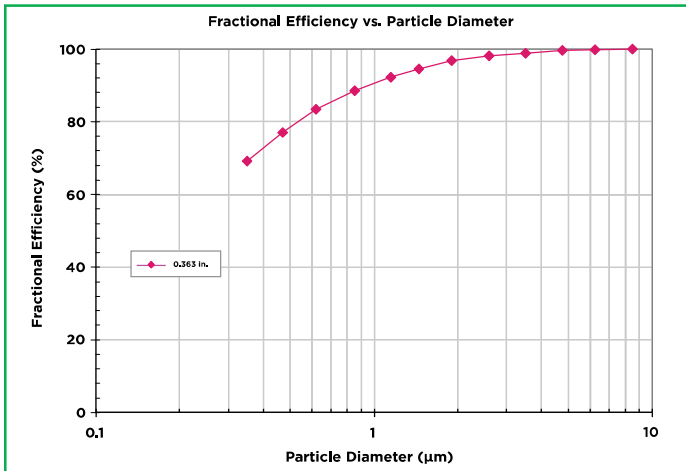

MERV 15 Pocket Air Filter

Convenience Where You Need It Most

Filterbuy Pocket Air Filters offer flexible solutions to meet your air quality needs. Choose from a variety of configurations of 5, 6, 8, or 10 pockets, depths ranging from 12 to 30 inches, and up to 80 square feet of effective media area. For optimal performance, select the largest filter that fits within your system's airflow capacity and available space. Prioritize filters with the most effective media area for superior air filtration.

MERV 11 V-Cell (4V)

Convenience Where You Need It Most

Filterbuy's V-Cell filters are made with a "V" shape design that offers better air filtration and higher dirt-holding capacity. The pleats allow for optimized airflow and particle capture without excessive resistance. Filterbuy builds every V-cell with high-quality material in the USA. The media used offers a low pressure drop, which in turn offers better energy efficiency in the building. Increased efficiency leads to lower energy costs.

Top Reasons to Choose Filterbuy Business

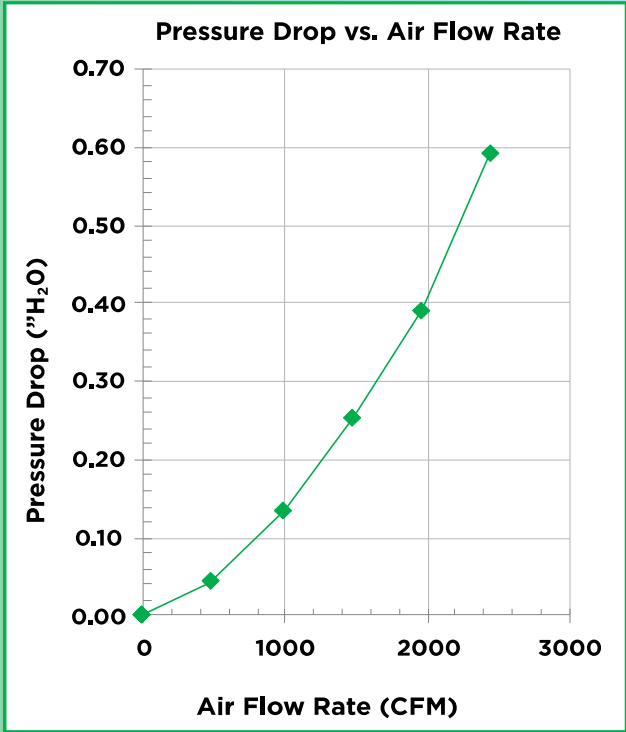

- Wholesale pricing from the factory
- 100,000 filters produced daily
- Any custom size filter can be made

MERV 13 Mini Pleat 2"

Convenience Where You Need It Most

Filterbuy is proud to manufacture mini pleat filters in the United States. Our mini pleats are constructed with durability and longevity in mind. Filterbuy mini pleat filters are designed with tighter pleats, which allows for a higher packing density of filter media. The compact design results in a filter that can handle larger volumes of air while maintaining a high level of particle removal. With an increased surface area more particles are trapped and allows for lower air flow resistance, resulting in greater energy cost savings.

Top Reasons to Choose Filterbuy Business

- Wholesale pricing from the factory

Business Hours: Monday - Friday. 8:30 AM - 4:30 PM CST

Please contact me with any questions or if you want me to process your order.

If you need assistance with selecting the size of your air filter, we've put together this guide and reference tips for you!

If you do not find the correct size using "Standard Sizes," change to "Create Custom."

For Custom filters, under "Custom Width" and "Custom Length," the inches are recorded in the top drop-down, whereas fractional sizes are found in the bottom drop-down menu.

Be sure to convert decimals to fractions. See the chart below for a helpful reference.

.125 = 1/8	.25 = 1/4	.375 = 3/8
.625 = 5/8	.75 = 3/4	.875 = 7/8
.50 = 1/2
