Vendor Questions & AFI Responses

RFP-2025-100, Office Products

Vendor Question	*AFI Response*
Can you provide the URL for CIVIC marketplace?	https://www.civicmarketplace.com/
I do not believe we are currently set up with either of these. Can you provide the obligations specified in Edge Public's contractual documents? Is there a cost associated with these platforms?	The admin fee is listed in the RFP. There are no other costs associated with this platform.
Can you share who the currently awarded suppliers are?	Multiple suppliers are being used directly but none through a current GPO.
Are cost increases allowed on the 250 items during the first 5 years?	Yes, in accordance with the RFP guidelines.
It states Products must be available 24/7 through multiple ordering methods, including E-procurement systems, Online Stores, and/or Retail Stores. We have our website available 24/7, do we need to have another source available?	No, that meets the requirements.
You state: Online catalog access reflecting contract pricing is a requirement. Is it acceptable to have a username and password so when a customer logs in they see their discounted pricing? You don't mean a PDF catalog with your pricing in it, correct?	Yes, perfectly worded.
When you state firm pricing for 5 years for the catalog discount portion, do you mean the discount % needs to remain the same or the items need to be net priced with the discount off price and remain firm for 5 years.	Yes, the % discount off MSRP is fixed for the term; however, MSRP may change in accordance with the contract and market conditions.
