

DIGITAL ACCESSIBILITY SERVICES

Training Services

Empower Your Team and Build Accessibility Expertise

Creating inclusive digital experiences starts with informed teams. Nelnet’s accessibility training services equip your staff with the knowledge and skills to design, develop, and maintain accessible digital content. Whether you’re onboarding new team members or upskilling existing ones, our training services are tailored to your organization’s roles, technologies, and accessibility goals. We offer instructor-led sessions, on-demand modules, and hands-on workshops that address compliance standards (WCAG, ADA, Section 508, EAA) and promote inclusive design practices.

How We Deliver Results

We deliver results by tailoring training to your team’s roles and needs, using real-world examples and interactive instruction. Our flexible formats and ongoing support empower staff to apply accessibility best practices in their daily work confidently.

- ✔ **Customized Curriculum** | Training content is tailored to your team’s roles and organization’s needs.
- ✔ **Expert Instruction** | Sessions are led by seasoned accessibility professionals with real-world experience.
- ✔ **Flexible Formats** | Choose from live virtual sessions or on-demand videos.
- ✔ **Practical Application** | Training includes real examples, interactive exercise, and actionable takeaways.
- ✔ **Ongoing Enablement** | Post-training resources and coaching sessions support continued learning and implementation.

We deliver results by tailoring training to your team’s roles and needs, using real-world examples and interactive instruction.

Training Outcomes

Nelnet's accessibility training empowers your team to confidently design, develop, and maintain accessible digital content. After completing our training sessions, your team will understand key compliance standards, recognize and address accessibility barriers, and apply inclusive design practices in daily work. The result is a more knowledgeable, proactive team equipped to build and sustain accessible experiences for all users.

Who We Are

Nelnet's Digital Accessibility Team brings decades of experience helping organizations create inclusive, compliant digital environments. Our specialists have a proven track record in evaluating, remediating, and supporting accessibility across diverse industries. With deep expertise in accessibility standards (WCAG, ADA, Section 508, EAA), user experience, and assistive technologies, we deliver thorough assessments, actionable guidance, and ongoing support. Our commitment to accessibility meets every client's unique needs, empowering them to provide equitable digital experiences for all users.
