

ECPA

Educational Cooperative Purchasing Alliance

RESPONDENT SUGGESTED ENHANCEMENTS

Company Name Sparient, Inc.

Please add below any enhancements (or on an attached sheet) that you believe would be beneficial to the ECPA and other participating entities that are not listed in this solicitation.

In addition to the services proposed under this solicitation, we offer following optional enhancements
agencies in achievingto further support ECPA, Edge Public, and participating scalable, sustainable
digital accessibility outcomes

1. AI-Assisted Consulting Acceleration

To improve efficiency for agencies managing large or complex digital portfolios, we may utilize
AI-assisted tools within our consulting engagements to accelerate accessibility analysis, PDF
and web remediation workflows, and quality validation. These tools are used under expert
oversight to enhance consistency and turnaround time and are not offered as standalone
software products.

2. Cooperative Accessibility Learning & Enablement Resources

Participating agencies may receive access to a shared, role-based learning library that includes
short instructional videos, remediation workflow demonstrations, and reusable reference
materials. This enhancement supports training and capacity building by enabling agencies
of varying sizes and maturity levels to develop internal accessibility skills without duplicative
investment

3. Reusable Governance & Program Frameworks

To support consistent adoption across multiple agencies, we can provide adaptable policy

These enhancements are offered at no obligation and are designed to strengthen the overall value of the cooperative contract by promoting consistency, reducing duplication of effort, and supporting long-term accessibility maturity across ECPA's participating entities
